

## INDUSTRIAL PROOF ROLLING CUT, GOLDEN GROVE, SA

<b>Client:</b>	<b>Rocla Quarry Products</b>
<b>Location:</b>	<b>Golden Grove, South Australia</b>
<b>Machine(s) used:</b>	<b>BH-1300 (8t module)</b>
<b>Scope of Project:</b>	<b>A new sand &amp; clay silo was being constructed for an expansion of the Rocla brick factory.</b>
<b>Details of Project:</b>	<b>Proof rolling the clay base of a 2m cut which was only 25m x 60m &amp; boxed in below ground level.</b>
<b>Performance:</b>	<b>Rolling identified no differential settlement &amp; provided the consultant with confidence to reduce the footing design accordingly.</b>
